CAREER OBJECTIVE

Aspiring Full-Stack Web Developer with a strong foundation in Laravel and Node.js, seeking opportunities to contribute to innovative web projects while expanding my experience in both frontend and backend development. Eager to apply my knowledge of AI integration in real-world applications and collaborate within a results-driven development team. Committed to continuous learning and delivering efficient, scalable, and user-centered solutions.

TECHNICAL SKILLS

- Languages: C++, Python, JavaScript
- Web Development: HTML, CSS, Tailwind CSS, Bootstrap
- Frameworks & Libraries: Laravel, Node.js, React
- Databases: MySQL
- Tools & Platforms: VS Code, Cursor, Postman, Git
- Version Control & Deployment: GitHub, GitLab, Vercel
- APIs & Integrations: Google Authentication API, OpenAI API (ChatGPT) for AI driven automation

PERSONAL SKILLS

- Strong leadership and coordination skills from experience as a Technical Project Manager
- Problem-solving under pressure during live technical events
- Adaptability and hands-on troubleshooting with OBS and sound systems
- Effective team communication and collaboration
- Self-motivated and detail-oriented in both solo and group projects
